Blur-Free High-Res
Images at 40mph

MOBILE MAPPING SOLUTIONS

Highlights

- Customized LiDAR solutions
- Up to 200 MP imagery
- Up to 5 Million points per second
- Accuracy +/- 1 inch
- Quick turnaround time
- Small stretches from 5 kms

Applications

- Corridor survey and mapping
- Field data for regulatory compliances
- Field data for permit application processing
- Pole data collection/Pole inspections
- Asset mapping
- 3D visualizations and walk through
- Vegetation management
- Post-disaster assessments
